

TRAININGS

Approval-Relevant Requirements

Our trainings are considered equal to the trainings held by Kraftfahrt-Bundesamt.

Participating our trainings serves as prove of knowledge of approval-relevant requirements.

TRAINING PROGRAMS FOR HOMOLOGATION SUPPORT IN MEETING APPROVAL-RELEVANT REQUIREMENTS

ABOUT OUR TRAINING PROGRAMS

ALEE offers specialized training for manufacturers and distributors of vehicles and vehicle parts. Learn all about the requirements for homologation and conformity testing in the EU and how to meet them efficiently. Our practical training sessions are led by experienced experts and provide valuable insights into current regulations and best practices.

OUR TRAINING OFFERS

1. Fundamentals of Vehicle and Vehicle Parts Approval

- Legal foundations for approval
- EU framework regulations and requirements
- Overview of various approval procedures and vehicle categories

Duration: 1 day

2. Fundamentals of Vehicle Registration and Post-Approval Modifications

- Registration procedures and CoC creation
- National approval procedures
- Modifications and special approvals

Duration: 1 day

3. Quality Assurance and Conformity of Production (CoP)

- Process of manufacturer's initial assessment
- Quality assurance in manufacturing
- Monitoring of approvals and recalls

Duration: Half day

WHY CHOOSE OUR TRAINING PROGRAMS?

- Expert Knowledge: Years of experience and extensive expertise.
- Practical Orientation: Real case studies and examples.
- Up-to-Date Content: Information always kept current.

TARGET GROUPS

- Manufacturers of vehicles and vehicle parts
- Homologation engineers
- Quality managers and engineers
- Regulatory affairs managers
- Technical directors and development engineers

Let's Collaborate! Do you want to learn more about our training programs or register directly? We look forward to working with you and answering your questions.
