

THE RELIABLE PARTNER
for Homologation and Type Testing

Alliance des laboratoires d'essais européenne GmbH

ABOUT US

As an alliance of test laboratories and a technical service designated by the German type-approval Authority Kraftfahrt-Bundesamt (KBA), we support both manufacturers of vehicles and vehicle parts in the homologation and conformity testing of their products for the European market, as well as test laboratories in handling and carrying out all related tasks.

AS OUR CUSTOMER

Higher Quality and Reliability: Our quality management measures ensure that the test results from our partner laboratories meet the highest quality standards, providing our customers with confidence and security.

Time and Cost Savings: Through efficient processes and transparent communication, our customers save time and resources in the homologation of their products.

Diverse Testing Options:

Our collaboration with various partner laboratories allows our customers to choose from a wide range of testing services and options to meet their specific requirements.

AS OUR PARTNER LABORATORY

Access to a Broader Customer Base: By partnering with ALEE, test laboratories gain access to a wide range of customers and projects, promoting their business growth.

Efficiency Enhancement: Our automated approach and transparent processes enable more efficient testing and faster approval processing.

Quality Improvement: Our support and training help enhance the quality of their testing services and strengthen their reputation in the industry.

OUR SERVICES

- Comprehensive portfolio of homologation services and conformity testing in competent partner laboratories
- Support in handling approval processes with authorities
- Training programs for manufacturers to comply with approval-relevant requirements
- Assistance with all questions regarding manufacturer initial assessment and collaboration with strong partners for required audits

WHY CHOOSE ALEE?

- Transparent processes and adherence to the highest quality standards
- Many years of experience and a strong network
- Fast and customer-oriented services
- Simple homologation processes and personal contact

QUALITY MANAGEMENT

Our partner laboratories are carefully selected, trained, and regularly audited to ensure the highest quality standards. This enhances the quality of testing services and offers significant benefits to our partners and customers.
